

# SECOND OPINION

---

## User Flow

### 1. Landing Page / Home Screen

- Users can either:
  - Browse **recommended doctors** (randomized list).
  - Or **search** by:
    - Location
    - Department/Specialization
- On clicking **“Find Doctor”**, users are taken to the filtered doctor list page.

### 2. Doctor List Page

- Displays doctors matching the selected location and department.
- Each doctor card includes:
  - Basic info
  - Two buttons:
    - **“Know More”** → redirects to a detailed doctor profile page.
    - **“Book a Consultation”** → takes the user to document submission page.

### 3. Doctor Profile Page

- Shows full doctor details (bio, experience, specialization, etc.)
- Includes **“Book a Consultation”** button.

### 4. Book a Consultation Page

- Users can:
  - Choose available **date and time**.
  - **Upload patient details** and relevant **documents**.
  - Click **“Submit Your Document”**.

🔒 If the user is **not logged in**, they are **prompted to sign up or log in** *at the time of clicking “Submit Your Document”*.

**After sign-up/login, users are automatically redirected to the response page** where they can view the doctor's feedback and comments related to the uploaded documents.

#### 5. Response Page

- Once submitted, users are redirected here.
  - Displays doctor's feedback, recommendations, or queries regarding the uploaded documents.
-

# Doctor Flow

## 1. Landing Page / Home Screen

- Shared with users.
- Doctor clicks on “**Sign Up**”.

## 2. Doctor Registration Flow (Mandatory Sign-Up)

- Multi-step form:
  1. **Personal Details** – Name, phone, address, etc.
  2. **Professional Details** – Specialization, years of experience.
  3. **Educational Background** – Degrees, certifications.
  4. **Consulting Info** – Available slots, location (online/offline).
  5. **Other Information** – License number, verification docs, etc.

## 3. Doctor Dashboard (Post Signup/Login)

- Sidebar includes:
  - **Dashboard (Home):**
    - Overview of total consultations
    - Recent activity
  - **Appointments:**
    - List of patient appointments
    - Confirm/Reject actions
    - View patient-submitted documents
  - **Profile Edits:**
    - Update personal, professional, or consulting information.
  - **Settings:**
    - Change password, notification preferences.
  - **Logout**

## 4. Consultation Response

- Doctors view **uploaded documents**.
- Write **feedback, suggestions, or recommendations**.
- Response is instantly sent to the user’s **Response Page**.
